¿Que necesita un Robot?

ロボット・エイジ

きみの家にも登場!!
母親ロボット

いそがしい、おかあさんにかわって赤ちゃんのおもりをする、気わりだねロボットだ。

赤ちゃんが泣くと、あやしたり、やさしく、歌をうたうこともできる。おむつのとりかえや、ミルクをのませることもうまいものだ。

もちろん、すぐれた電子頭脳をもっているから、きみとゲームをしたり、あそんだりすることもできる。

◀散歩する母親ロボット

ロボット情報

空中の人工の手（東大・森研究室）

```
Cylon.robot({
  connections: {
    arduino: { adaptor: 'firmata', port: '/dev/ttyACM0' }
  },

  devices: {
    led: { driver: 'led', pin: 13 },
    button: { driver: 'button', pin: 2 }
  },

  work: function(my) {
    my.button.on('push', function() {
      my.led.toggle();
    });
  }
});
```

GORT

```
$ gort
NAME:
   gort - Command Line Utility for RobotOps

USAGE:
   gort [global options] command <required arguments> [optional arguments...]

VERSION:
   0.4.1

COMMANDS:
   scan          Scan for connected devices on Serial, USB, or Bluetooth ports
   bluetooth     Pair, connect, & unpair bluetooth devices.
   arduino       Install avrdude, and upload HEX files to your Arduino
   particle      Upload sketches to your Particle Photon
   digispark     Configure your Digispark microcontroller
   crazyflie     Configure your Crazyflie
   klaatu        barada nikto
   help, h       Shows a list of commands or help for one command

GLOBAL OPTIONS:
   --help, -h              show help
   --version, -v           print the version
```

Shut up
and give the
code!

¡6EQUJ5!
